Western Powers May Set Up Own Berlin Regime

Separate Three-Power Rule May Be Established Says Gen. Clay

DR. ERNEST REUTER NAMED AS MAYOR

By RICHARD S. WEIL BERLIN, Dec. 7.-U. S. Military Governor Gen. Lucius D. Clay said today the western powers may turn their backs on Russia in Berlin and set up their own tri-partite military regime in the blockaded city.

WASHINGTON, Dec. 7.—(INS)

—Today is the seventh anniversary of the Japanese sneak attack on Pearl Harbor which plunged the United States into World War II.

The occasion went unmarked in official Washington, from the White House to the lower echelons of government.

The nation, having fought to victory in the most bitter and most costly of all conflicts, was at grips with the problems of a seemingly precarious peace.

The stand was taken by Dr. John R. Steelman, assistant to the President, at a meeting of the council of economic advisors at which the overall rent control situation was discussed.

It was reported that the meeting canvassed a suggestion for granting landlords an across-the-board 15 per cent boost in rents.

Steelman unequivocally rejected the idea. He made it clear that there would be no such general upward adjustment.

The federal rent control agency, directed by Tighe E. Woods, supported Steelman's position.

WASHINGTON, Dec. 7.—Every president in recent times has had his troubles with the press, and the man who will occupy the White House for the next four years is no exception. Beneath President Truman's smiling locularity with the reporters who confront him at his press conference is real resent-

the reporters who confront him at his press conference is real resentment of the treatment accorded him during the campaign and before.

It is not unlike the resentment which President Roosevelt occasionally voiced in jibes at the working press. This was back of President Truman's statement that there would be no changes in his official family.

He has sometimes been amused, but more often annoyed at the attempts of columnists and others to remake his cabinet. The President felt it was a good opportunity to teach these eager yolunteer helpers a lesson.

In his press conference he was careful to point out that he had moved into the White House in 1945. Then, too, the eager press was ready with myriad suggestions and the President squelched all rumors impending change.

We all look forward to having a great time . . but let me stop right there and say a few words about SAFETY . . . why safety right now . . . The Fire Chief has been doing a little talking and we think his words are very wise.

Fire Chief Steinbrink and Councilman Dick Davis both warned us that flammable Christmas decorations introduce a needless fire hazard during the Christmas holiday season, and asked all we local citizens to avoid the possibility of turning the cheerful Yuletide period into a time of grief and tragedy.

Non-flammable decorations of glass or metal are available, and "fireproof" snow should be used around the Christmas tree . . . It is dangerous to use paper or cotton in decorating the tree . . . Decorations should never be near chairs or other places where people may smoke, and plenty of ash trays should be placed around the house during the holiday season. "It is preferable", says Chief Steinbrink, "to put decorations up near the ceiling, well above the head of anyone standing up".

Still Problem For Science

What WOULD we all do without Science?

What I say is that it is simply wonderful the way it keeps on advancing, and have you heard the latest? A story released out of Washington, emanating from an atomic scientist, advises us that our home radios now may be used to detect the deadly radiations from an

atom bomb explosion.

The process is simple, it is explained. All you have to do is substitute a low voltage Geiger-Mueller Tube such as is used in the famous Geiger Counter, which is a kind of radiation sniffer, and your set will give forth sounds from a click to a roar depending upon how much radioactive dust is in the vicinity and how near. Then you will know.

After you have made your test all you do is remove the Geiger-Mueller Tube, replace the radio tube and Fred Allen or Jack Benny or Dr. Alexander is back on the air again.

Should Be Great Comfort

This, of course, should be a great comfort to us all. The wife at eventide admonishes her spouse: "Husband, darling, wind up the clock, put the car out, lock the front and back doors, test the neighborhood for radioactivity and come to bed. The Geiger-Mueller Tube is in the vase over the mantelpiece. I put it there so that Junior wouldn't

eat it".

There will be new jokes. The old maid before retiring will no longer be depicted looking under the bed for burglars, but glued to her loudspeaker timing the clicks and frequencies of her home-made Geiger Counter. Then there will be the guy who missed out on the Million Dollar, Face the Music Jackpot Question because a truck going by on the highway backfired and his wife got nervous and made him test for an atom bomb explosion with the radio just the telephone call came in.

Ha ha! Very funny. But so is life since they dreamed up that big firecracker. Just one big merry laugh.

But I'm Not Ungrateful

But I'm not ungrateful to the scientists because I appreciate they are trying to help all they can and at the very first opportunity I am going out and buy myself one of those tubes and install it in that old radio that doesn't work so good any more anyway and keep it on tap just for THAT.

And then I will be mortally obliged if somebody will tell me what to do in the event that when I make my nightly test before going to bed the radio goes "Click-click-click-ZOWIE!" meaning that somebody has found a way to load a couple of clouds with a package of radium emanations and they are headed my way.

Will Not Need Auxiliary Radio

I gather from what I have read that if an A-bomb is exploded in my vicinity I will not be needing my auxiliary radio to advise me of it. In fact, I will not be needing anything at all from then on since the problems of modern life will have come to an abrupt termination.

But just in case our Russian well-wishers find out a way to fleat a load over without advertising it with a thundering big bang, and my twelve-dollar table set tells me that it is on the way, what do I do and where do I so?

where do I go?

The Navy boys who have been engaged in the job of decontaminating the ships that were made radioactive at the time of the Bikini trials solved their problem very neatly, I thought, by towing them out into the middle of the ocean and sinking them. They couldn't clean 'em up so they got rid of them. Sooner or later, you and I are going to get awful sick from eating a piece of radioactive Pompano, or atomically reacting codfish that spent its honeymoon in the vicinity of the sunken craft, but leave us not try to anticipate EVERYTHING.

My immediate problem is: When I am sitting in the study of my farm some fine night and my Geiger-Muller Tube says, "Gallico, this is it. There's a load of the stuff on the way," how do I tow my farm out to sea and sink it, and what do I do with me? Come on, Science. Make me happy.

School Subsidies To Be Apportioned According To Assessment Of Properties

OTHER EVENTS IN COURT HOUSE

According to a story originating in the office of the Equalization Board in Harrisburg, school subsidies in the future will be determined upon the assessed value of properties in the various districts

where assessments are found to be out of line with market values the school subsidy will be low in proportion according to the method to be used after July 1, 1949.

The board is composed of John N. O'Neil of Washington, Pa., Attorney Walter J., Kress of Johnstown and Edwin Winner of Hatboro. In many districts of the state it has been found that assessments are entirely out of line with real value. While this board has no authority to change assessments no authority to change assessments it has the authority to decide what school subsidies shall be and these are to be made according to assessments. Low assessment will

Building Cost

HARRISBURG, Dec. 7.—(INS)—Building cost estimates declined more than half a million dollars during October when construction permits issued by 343 municipalities dropped to 5.797.

The month's building cost estimates totaled \$28,513,742 and were \$2,248,593 below the amount reported for October, 1947.

Estimated cost of residential construction accounted for \$15,491,639 of the total expected cost, the Department of Labor and Industry said.

Other building cost estimates were: non-residential construction, \$6,400,504; improvements, \$6,321,-224; and installations, \$300,375.

Direct loss each year from forest fires is estimated at more than \$32,000,000.

Soft Drink Tax

HARRISBURG, Dec. 7.-(INS)

Pennsylvania's one - cent soft drink tax was not viewed today as a threat to the industry by Gov. James H. Duff.

He said he did not believe the levy "has put anybody out of business"

The governor's assertion followed the Pennsylvania Bottlers' Association's claim that more than a

dozen bottling plants were forced to close as a result of what was called "the crushing effect" of the levy enacted by the General Assembly in 1947.

Add Rumford Baking Powder (no alum) and other sifted dry ingredients alternately with milk and vanilla; beat thoroughly. Rumford gives you quicker, easier beating batter... and your cake stays freah longer. Pour into two greased 8-inch layer pans. Bake in moderately hot oven (375°F.) for 25 minutes. Cut cooled layers crosswise making four layers. Fill layers with raspberry jam; dust top of cake with powdered sugar.

WASHINGTON CALLING

When the furor has subsided, the President will be able to make his own selections without a sense of having someone peer over his shoulder.

During his career in politics the President has taken a great deal of pounding from the press. That was true all during the days of the Pendergast machine, when Truman was sideswiped by the investigation into corruption and crime even though no amount of investigation could ever put any of the blame on him.

The President and the men "Give 'em Hell' side of the Fresiman crusade.

There will never be anything like the Roosevelt prescription of a dunce cap for reporters asking unwelcome questions. That would not be in accord with the Truman character. But part of the President's satisfaction in his victory is a sense that he beat the press, too. and he will react strongly against any advice from this source.

Many Projects Included In Christmastime Program-Work At YWCA This Year

The planning committee of the YWCA has planned a Christmas program to be held in the parlors of the YW Tuesday evening, December 14, at 7:45 o'clock.

Ohe committee member said that people never can sing carols as long as they want to. That thought influenced plans for the program which were then developed along informal lines. Miss Corinne Garside will tell a Christmas story after which the group will sing carols as long as they wish.

Doll Presentations

A very important part of the program will be the presentation of dolls. This doll project has been very interesting in that each one who participates buys two-thirds of a yard of material on which is printed a doll by the name of "Doris" and two dresses for her. The doll is cut out, sewed up and stuffed. The dresses are simple but attractive and it costs \$.49.

Two pounds of cotton will stuff three dolls. A local store took this material to the YW where it is now available for anyone who wants to make a doll.

The aim is for 100 dolls. All groups in the Y are helping to reach this aim. Letters have also been mailed to all church chairmen asking them to invite all the Y members in their church to the program and to see how many dolls they can make. If it is known that any little girls in New Castle will not have dolls, that number will be kept locally but the remainder will be sent to children in Europe where many little girls have never had even one doll.

Interesting Feature

Another very interesting feature on the program, and one that is for the enjoyment of the people participating will be the serving of wassail. The word "wassail" comes from the Anglo-Saxon and Welsh-Gaelic. "Waes" means "be thou" and "hell" means "in health" and the whole word, therefore, means "be thou in health".

On the planning committee are Jean Derr, Eleanor Dowe, Mary Galbreath, Margaret Harris, Della Kiser, Mary Jane Lewis, Mrs. Andrew Shevitz, Miss Murl Smith, Mrs. Joseph Stocky, Doris Ward and Dolores Williams.

Arrest Follows Road Collision

One arrest developed from a three cars accident one mile west of Rose Point on Route 422 at 4:35 p. m. yesterday. The cars were damaged. The State police made the arrest with a charge before Squire John Leonhardt, Slippery Rock township. The squire fined Louis Pospischek, 5443 North Campbell Avenue, Chicago, \$10, upon conviction of a reckless driving charge.

According to State police Mary K. Duek, New Bloomfield, O., was operating along the highway, and saw a school bus stop along the highway. According to Ohio law,

Snow is not the original "Flying Santa". The late Capt. William H. Wincapaw, of Rockland, Me., started the aerial lighthouse trips in 1927. He operated an aerial service from Rickland to Penobscot Bay. Capt. Wincapaw took a job flying gold over the Andes mountains in 1936, and Sonw took over as the "Flying Santa". In 1947, Capt. Wincapaw was killed in a plane crash in Rockland.

and February can be producing heavily from July to December. Those are the months when newiald eags are relatively scarce and prices are the highest of any season of the year.

Of: greater significance is the fact that winter-hatched pullets produce large and medium-sized eags when these sizes are in greatest market demand and relatively few of them are being produced. The smaller eag sizes, pullet and peewee, often glut local markets during the fall months when spring-hatched pullets start laying. Pullets hatched from April to June usually do not lay many large and medium-sized eags until winter and spring when the markets are usually well supplied. Then prices are low and it may be difficult to find buyers. Farmers can do much to improve their eag marketing situation by getting more winter-hatched chicks, thereby having more eags to sell when prices are higher and when the larger sizes pay the greatest premium.

When council met Monday in the municipal building it was reported a check amounting to \$7,-748.88 as the city's share of the state liquid fuel tax had been received from the state. The money was ordered placed for street improvements. It was the fourth payment received during 1948.

Mayor Haven reported police department receipts during November amounted to \$2,491.90, while the plumbing inspector announced November receipts at \$460.22. The sealer of weights at \$600.22. Under the direction of Homer Choate, members of the New Castle Rotary club were invited to recount the pleasant visits they have made to other Rotary clubs during their travels over the country.

Outstanding programs were recalled by J. Lee McFate, Harry Edder, Earl M. Cass, Blair D. Alverson and Richard E. Rentz. The latter's visit was probably the farthest from home, of any made. Mr. Rentz visited a club along the French Riviera while in service during the late war.

The program proved interesting to the members as it gave them an insight into what clubs are doing in other places.

POLITENESS TO THE ELDERLY
Too often, in these days of rush
and bustle, aged people receive
slight consideration from those
who control traffic or handle
crowds entering or leaving theaters, busea street cars, railway
trains, elevators and entrances to
shops.

we now hear old people say that they stay away from the crowded city center because of fear that they won't get across the street before traffic turns, or that they

before traffic turns, or that they may get caught in a car or elevator door slammed by an attendant impatient with those whose unsteady knees can no longer work with agility.

In a few cities, the intermediate yellow light still gives Grandfather and Grandmother a chance to get entirely across the concrete before the onrush of roaring trucks, oiltankers, buses and pleasure cars resumes. And on public conveytances, there still are even in this generation a few guards, conductors or brakemen who—mindful of white-haired grandparents of their own—give aged patrons a chance to enter or alight and thus spare their worn-out hearts and worn-out legs.

My dad is giving me away. May he, the best man and the groom wear tuxedos?

Answer: Tuxedos (dinner clothes) are never correctly worn before 6 p.m. and are never correct in a wedding party unless the bride wears a dinner dress, rather than bridal attire and has only two attendants—a maid or matron-of-honor and a best man. At a formal wedding after 6 p.m. the male attendants, including the bride's father, should wear formal evening clothes—swallowtail coats, white ties and white waistcoats.

Now, for your mid-afternoon wedding, the party, including your father, should wear formal day-time clothes, cutaway coats, striped trousers, etc.

SPEED PROCESS IN DETECTING CANCER

PHILADELPHIA, Dec. 7—(INS

Another battle has been won in the war against cancer.

A new discovery by a University of Pennsylvania professor may aid in the early detection and diagnosis of the disease.

The technique, credited to Dr. Harvey Blank, involves a method of speeding up examination of tissues in cases where the presence of cancerous growth is suspected. Whereas the old method of examination took days, Dr. Blank's technique requires only hours. The importance of the discovery has been halled by leaders of the cancer crusade who stress the importance of early discovery and treatment.

Further study of the new meth-od is being carried out in the uni-versity's skin and cancer hospital.

Young Men Under Eigh teen Can Enroll With Exemption From

MANY ENROLLED IN PAST WEEK

During the past week, the 229th Field Artillery, P.N.G., commanded by Lt. Col. George F. Mitchell, conducted a successful recruiting sampaign, when a number of young men were added to the rolls.

It was announced that there are still openings with the local units, carrying the grade of captain and lieutenant for some former officer or reserve officer, who can meet the requirements to become active in the National Guard.

There are also a few openings for young men between the ages of 17 and 18½ years, who are interested in getting their military training at home, without interfering with their schooling or civilian status. Under a new law, young men who become active in the National Guard before they have reached the age of 18½ years, are exempted from the draft. The pay and opportunities are good.

Young men who are interested are invited to visit Cunningham Armory on Wednesday or Thursday evenings, where further information on their part.

"If you can't squeeze your way into an excusion train," commented Robert Benchley, "you can get the same effect by borrowing seven children, sliding an orange peel inside the back of your collar, and putting a cinder in your eye."

The most concise remark was made by E. S. Martin, who pointed out, "People have stayed comfortably at home and lived to be a hundred years old.

Titans Oppose Kent State In Home Floor Opener Tonight

Ohioans Reported Irish Players Pick Murakowski With Strong Team

Titans are not taking on a "breather" tonight in Kent State by any means.

Coach Grover Washabaugh will unwrap his 1948-49 Titan passers at 8:15 o'clock tonight in the Westminster gym with a Kent State team that is "red-hot", having defeated Baldwin-Wallace last Friday night 60 to 50 and also knocked off Akron Goodyear 53 to 33, the team that upset Westminster recently. 47-42.

Coach Washabaugh starts another home season, with one of his stars Bruce Wagner, sidelined with an ankle injury, and may not see any action. Clyde Shaffer, New Wilmington, Pa., will start at one forward, with big Ed Halas, a freshman from Ford City, slated to fill the other forward spot, Halas is one of the outstanding first year men at Westminster this year. Hyder has looked very good in late workouts, and has replaced Jack Jones of Connellsville as a starter.

Jack Jones of Connellsville as a starter.

First string reserves for the Titans will be Dick Fuhrer, Don Mayberry, Bill Paul and Jones.

Wealth Of Material

Dave McDowell, starting his first season at the Golden Flash helm, has a wealth of seasoned material at his command. He'll bank on the talents of all-Ohio performers Daie Haverstock and Leroy Thompson to carry the Flashes' offensive load. Both scored well over 200 points last season. In addition, McDowell can call on Fred Klaisner, rangy forward who led the squad scoring in 1946 with 294 points. Klaisner slipped to 157 counters last season. Jerry Amico and George Fulton or the ailing John Collver will fill out the Flash starting combination for both games.

Kent State is out to better the 1947-48 record of 15 wins and eight defeats.

In view of the press's support of Savold, it was thought today that he still might be given a chance to earn the title shot, especially in Sportsman's farm at the Harbor, according to President Herman Steinbrink.

schedule of games is in the process of being drawn up.

The league may kickoff on December 13, it was indicated. Art Mittler is president; Bill Patton is secretary; and Gus Slovonsky is treasurer. So far five teams have put up their \$25.00 franchise money, but all other teams are expected to be in with their money tonight. It looks like a 10 or 12-team league.

To Meet Tonight

All teams in the city-county

basketball loop will meet at the Elks club at 7 o'clock tonight. This meeting is for the purpose of getting in all franchise money. A

schedule of games is in the process

PITTSBURGH, Dec. 7.—(INS)

—Pitt officials were feeling mighty chipper today over Capt. Tom Hamilton accepting the post of athletic director at the University of Pittsburgh.

Capt. Hamilton is scheduled to report at Pitt on Feb. 1. That is the date the 42-year-old veteran will retire from the navy as athletic director of the Naval Academy at Annapolis.

He will be given the title of director of physical athletics at the University of Pittsburgh, with a reported salary of \$15,000 a year.

Officials Elated

Following the announcement Monday that Capt. Hamilton had accepted the post, Chancellor Rufus Fitzgerald said:

"We are very happy that the university has secured the servics of a man of the caliber of Thomas Hamilton."

Acting Athletic Director Frank

Acting Athletic Director Frank
Carver said:
"It's like an early visit from
Santa Claus. I'm very happy to
turn the job over to a man of Ham-

ilton's stature."

Pitt alumni and varsity men expressed themselves as very much pleased with the new set-up, and a strong feeling prevails that Pitt at last is on its way to becoming the 'football power it was before the school embarked on a de-emphasis program in 1938.

At Youngstown

High Passers Will Play Ursuline At South High Field House At 7:15 O'Clock

Coach George Thomas, Assist-ant Coach Austin Cowmeadow, and Faculty Manager Robert Mills tonight will lead the New Castle basketball team to the South High Field House at Youngstown, for a meeting with the fast Ursuline High cagers. The game will start at 7:15 o'clock.

Hoping to carry through where they left off last Friday in defeating Akron Kenmore 49 to 27 the New Castle flippers will strive to win their second pre-league tilt.

Coach Thomas was to start the same five that began the Akron

coach Thomas was to start the same five that began the Akron game—Piccirillo and Lewis at the forwards, Reed at center, and Cialella and Conti the guards. Clark, Haines and Sampson will see quite a bit of action also, it was indi-

cated.

New Castle returns to Washington floor Friday with Youngstown
East the opponents.

WOULD LIKE GAMES the school embarked on a de-emphasis program in 1938.

Horace Ashenfelter, Penn State distance runner, contemplates a busy season on America's indoor boards.

WOULD LIKE GAMES

The Polish Falcons of New Castle would like to schedule games with any city or county basketball team. Contact Eddie Melcer by phoning 1542-W or call the Falcon club, Phone 9122.

By BEN OPSTEIN ATLANTA, Dec. 7.—A rugged 220-pound tackle—Paul Lea—and a pulverizing fullback — Eddle Price—won positions today for Tulane on International News Service's 1948 All-South football team

team.
INS considered the weekly vote INS considered the weekly vote of some 75 southern sports writers, coaches, radio announcers, and athletic publicity men in naming three North Carolina players to the second team and one to the first. Tennessee placed two men on the second eleven.

In the backfield besides Price, North Carolina's Charlie (Choo Choo) Justice, Georgia's Johnny Rauch and Bobby Gage of undefeated and untied Clemson captured positions.

Rauch and Bobby Gage of Undefeated and untied Clemson captured positions.

Gage Most Valuable

Gage was hailed the most valuable player on the mythical team.

This additional honor was bestowed because of his consistent play in leading Clemson to its greatest season in 52 years of football.

With Lea on the line are Barney Poole of Mississippi and John (Red) O'Quinn of Wake Forest at the ends; Duke's Louis Allen at tackle; Georgia Tech's Bill Healy and Vanderbilt's Ken Cooper at Guards, and Tommy Thompson of William and Mary at center.

The most difficult problem confronting the selectors was the naming of the ends and tackles. Art Weiner of North Carolina, Rebel Steiner of Alabama, Abner Wimberly of Louisiana Sate. Wallace (Wah Wah) Jones of Kentucky, George Brodnax of Georgia Tech and Jim Powell of Tennessee all deserved recognition for their outstanding end play.

all deserved recognition for their outstanding end play.

Maryland's Ray Krouse, North Caroline's Len Szafaryn, Georgia's Porter Payne, Vanderbilt's Carl Copp and Duke's Al Derogatis were singled out as great tackles along with Lea and Allen.

STOCK MARKET LITTLE CHANGED

Slight Downward Trend In Slow Trading During Morning Hours

NEW YORK, Dec. 7 .- (INS) Stocks assumed a slow downtrend otal groups sharing a steady dribble of offerings. First hour volume

totaled 230,000 shares.

Motor and steel issues trailed about a half point each toward the noon hour. Scattered profit taking appeared in oils, Jersey Standard dipping ½ and Gulf ¾. Rails eased in a dull trade. Eastern Air Line reacted ½ to 16¼. Coppers and farm shares were firm. Other groups were featureless.

Early N. Y. cotton market quotations were mixed with distant U.S. Bubber. tations were mixed with distant options firm. Curb shares and Big Board bonds followed a narrow, firm trend.
